

Trim this end to customize fit for wrist.

## Light up 4th of July Bracelet

- ☆ After the felt has been cut out hot glue the lights and battery holder in place. If you are using a white felt for the base, then the bulbs will be glued face down. That way when you turn them on the, the glow will be seen through the fabric. But the stitches won't be seen.
- ☆ The stripes should be hot glued or sewn to the side opposite of the circuit.
- ☆ After the stripes and stars are added, adjust and trim for fit and then hot glue the Velcro strips.
- ☆ Next, use the conductive thread to sew all of the positive sides of the circuit and then sew the negative sides.
- ☆ Insert battery and turn it on!
